Dear student,

Welcome to the TU/e Master’s program Mechanical Engineering, including the special master tracks MSE and AIES. In this e-mail, we provide you with the important information to start your Master’s program.

Make sure to attend the department information meeting on August 25th.

Please note the following important dates and times for the MW Master’s program:

<table>
<thead>
<tr>
<th>Date</th>
<th>Event</th>
</tr>
</thead>
<tbody>
<tr>
<td>23 August 2020</td>
<td>Closing date registration for courses quarter 1 (check the education guide for more information about registration courses and your course program).</td>
</tr>
<tr>
<td>25 August 2020</td>
<td>Department information meeting (part of the Master Kick-off) During this online information meeting you will receive information about your program. We want you to attend this meeting, even if you do not attend the Master kick off. In the attachment you will find all information you need to follow this meeting.</td>
</tr>
<tr>
<td>31 August 2020</td>
<td>Start courses Check &lt;MyTimetable&gt; for your courses.</td>
</tr>
<tr>

<td>Course Occupational Health, Safety, Environment &amp; Radiation Protection (mandatory for all new students at the TU/e, you will receive an invitation)</td>
</tr>
<tr>
<td>4 September 2020</td>
<td>Q&amp;A session at the end of the first week. (you will receive an invitation)</td>
</tr>
</tbody>
</table>

Other information about the program

- For more information about the program please check the <Education Guide> Besides the general information, you can find more detailed information about the curriculum (including courses and course codes) and specializations. We strongly advise you to check the <to-do list> before the start of the program. This list guides you through all administrative steps you have to take during your Master program.

- Teacher Mentor: your research section will contact you about the process of allocating a master mentor to you.

- You will be registered by our education office into the course 4INFOMW (CANVAS) around September. This is the information channel we use to keep students informed about educational matters and information about, for example, student information meetings.

- In the first semester all lectures will be online due to the corona situation. Some practical components of courses will be on campus to create an opportunity for students to meet your lecturer and fellow students. Check out your timetable for more information.

- You will be registered by our education office into the course 4INFOMW (CANVAS) around September. This is the information channel we use to keep students informed about educational matters and information about, for example, student information meetings.
• Students who are new at TU/e will be assigned to a student mentor. The student mentor is a senior student of your master’s program. He or she will organize both group meetings and individual meetings to ensure you have a good start, can share experiences, you get to know a number of fellow students and at least one senior, and to find you way as a student of TU/e.

Final remarks.

• For questions about your general registration as a student of this university and for matters like login to OSIRIS, please contact ESA@tue.nl.
• There is no need to inform us if you cannot attend the program’s introduction (august 25). We will post the presentations online (4INFOMW) after the meetings.

Best regards,

On behalf of team ESA Mechanical Engineering,

Hans Kuerten – graduate program director
Marijke Creusen – academic advisor
Rob van der Heijden – program coordinator
