2048 ANTARCTIC

Alone you are faster but together we reach higher
The Antarctic contains 70% of our total freshwater stock. The Antarctic melt 6x master than our models indicate. If the Antarctic completely melt, the sea level will rise 58! meter.
sensor of the planet

building a smart world

Do whatever it takes

not for us but for the planet
phase 1

Building the smartest platform, powered on wind/solar energy, to conduct research on the Antarctic.

phase 2

Autonomous scientific research on the Antarctic/Mars.
sensor of the planet

Do what ever it takes

explorers with guts needed

it is Not a call but an offer

beyond discovery

I participate with you
