Selected achievements: Winners BPIC’18

Main learning outcome: “learning to learn”

Fields of study:
- (main focus) Deep Learning, Machine Learning
- Evolutionary Computation, Process Mining, Complex Systems, etc.

Learning paradigm:
- Problem-Based Learning and Design-Based Learning

Approach:
- Applied Research (e.g. Kaggle competitions, NIPS competition track)
- Fundamental Research (e.g. ICLR Reproducibility Challenge, any other good idea we may have)

Self-driven questions:
- How? and Why?
